PATIENT EDUCATION RESOURCES

TOTAL JOINT REPLACEMENT CLASS VIDEO

We have moved our Total Joint Replacement classes online for the duration of 2020. Patients preparing for joint replacement are strongly encouraged to watch the class video prior to surgery. The class provides valuable information to help you prepare for surgery and know what to expect. Caregivers are encouraged to view the class video as well.

While we hope this video will cover most important topics and common questions, your communication at every step will help us better care for your needs. Please contact your provider's office with questions.

To access the online class video:

- Visit www.orthopedicone.com
- Select **PATIENT EDUCATION** from the **FOR PATIENTS** drop down menu on the home page. (See the close up of our home page below.)

orthopedicone.com/patient-resources/patient-education

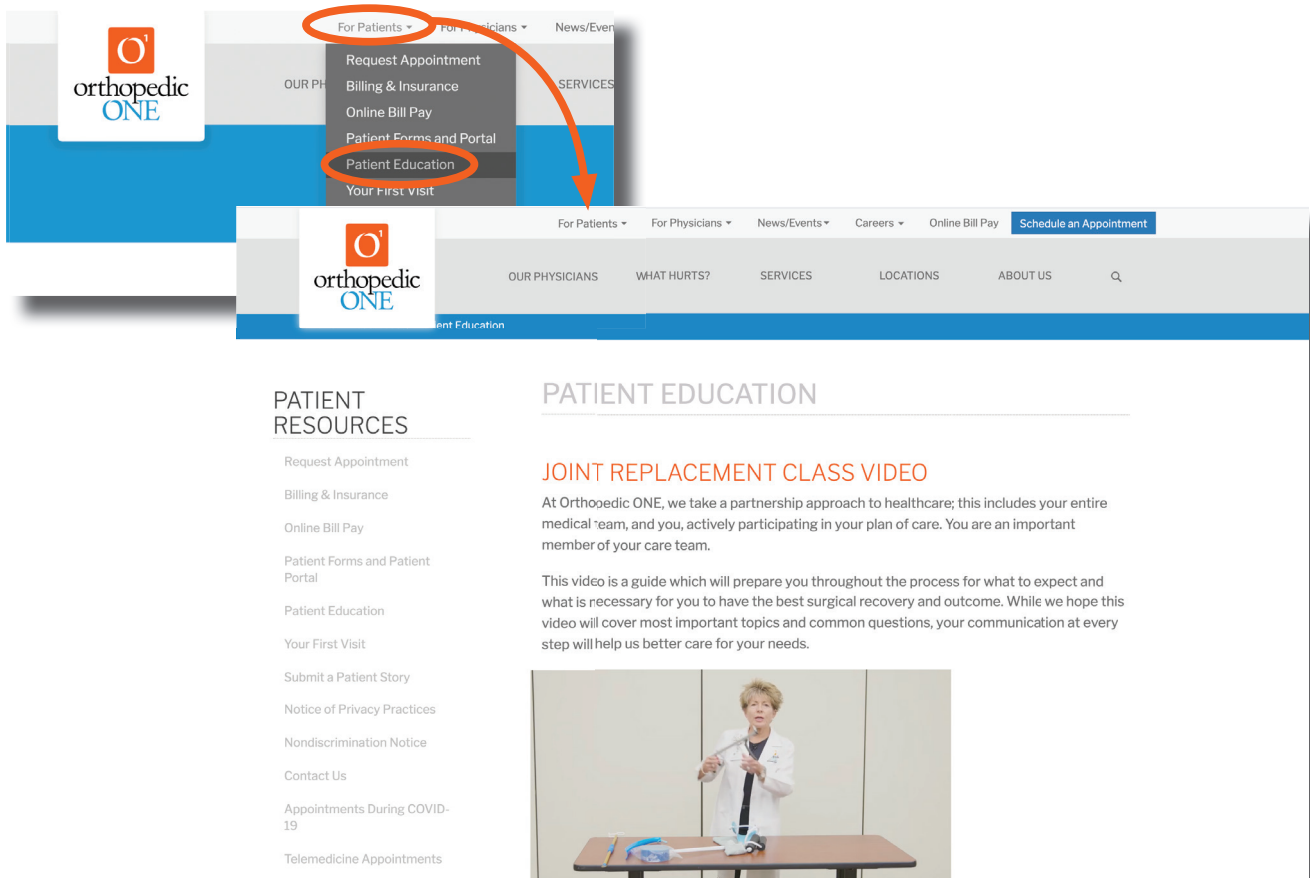

Or, scan this QR code to the left with your device to be taken directly to the class video on our website.
