

# Helping *your* medical professionals stay informed.

**T**oday your medical needs are spread out over a wide network of health providers – family physicians, specialists, hospitals and clinics. Keeping each provider up to date with changing health conditions and medications can be a daunting task. The CliniSync Health Information Exchange was developed to help your medical providers connect, improving coordination of your care.

## AUTOMATIC CONSENT

You are automatically enrolled in the Health Information Exchange so your medical record summary and test results can be electronically shared among your doctors who are also participating in this network.

## IMPORTANT INFORMATION FOR DOCTORS

Sharing your medical records electronically is the most efficient and safe way for your healthcare provider to get a complete picture of your health in one record, no matter where you have been treated in Ohio.

## SAVING TIME AND LIVES

This is especially important in an emergency, when you may be unconscious or unable to speak. Your doctor can save time and even your life when your medical history is right there.

## IMPROVED PATIENT SAFETY

If you're away from home and in Ohio when you get sick, clinicians can view what medical problems you have and see any allergies you might have. This improves your care and your safety.

## PRIVACY AND SECURITY

Only doctors and staff who provide your medical care can look at your health information. Our records remain private in a secure network that is audited by CliniSync for compliance with federal privacy regulations.

## OPTING OUT

You may opt out of the Health Information Exchange by completing a Request to Change Consent form. You can obtain this form from your provider's office. Once completed, you may return it to your provider's office or mail it to:

Ohio Health Information Partnership  
Attn: Consent Status  
3455 Mill Run Drive, Suite 215  
Hilliard, OH 43026

If mailing to the Ohio Health Information Partnership, the form must be notarized or witnessed by a Medical Office staff member.

Once the form is received your consent status in the Health Information Exchange will be updated.
